December Clinic Newsletter

CLINIC RECAP

During our December 11th clinic in El Florido IV in Tijuana, Mexico we collaborated with 26 volunteers, 2 medical providers, and 1 dental provider to provide care to 17 total patients. 10 of our patients received medical care while 7 received dental care. Additionally, our pharmacy team was able to distribute a total of 730 pills to our patients at no cost! As usual, we hope to continue making improvements such that we are able to provide better quality care to more patients each month!

DECEMBER CLINIC

We will be holding our next clinic on Sunday, January 15th, 2023 and we are currently seeking as much volunteer and provider involvement as possible, especially enthusiastic Spanish speakers! If you know any dental providers (dentists or dental assistants) who may be interested in volunteering with us, please notify our Dental Clinic Coordinator, Victoria Vongkaysone (vvongkaysone5253@sdsu.edu). If you know of any General Medical Providers or Physical Therapy providers, please contact our Internal VP, Hazem Chrabakh (hazemchrabakh@gmail.com). For general volunteer involvement, please contact the Flying Samaritans official email (flyingsamaritanssdsu@gmail.com).

UPDATED SERVICES

We also had the opportunity to hold our first official physical therapy clinic service with our new dedicated physical therapy provider. After seeing success and working through details of how we can incorporate PT into our clinic flow, we hope this newly established part of our clinic will continue to be of use to our patients.

UPCOMING CLINICS

- January 15th, 2023
- February 12th, 2023
- March 12th, 2023
